Moved by: Norma McDowell,

Seconded by: Mike Besler.

II. AGENDA ITEMS

- A. Discussion and possible decision for a new business sign; add blue LED lights on top of building and also dye the Awning black with Logo in white letters with small blue LED lights at 221 West Railroad Ave "MK Biker Shop" (Mary).

Business owners discussed their ideas of addressing the dying of the awning as well as adding lights to the awning and on top of building and the approval of their business sign, which will be in front of the building. City code states that only one sign per business, either a wall sign or an awning sign. You could place the logo on the side of the awning only. Attachment of sign shall be in mortar joints not through the brick. Commissioners addressed the concern that lighting on top of building may be against "dark sky" ordinance. Dan stated that only incandescent lighting may be used on top of building and only for 90 days. Discussed the issues of the lighting under the awning, they may use the LED blue lighting underneath the awning only.
